SALE ORDER & SUPPLEMENTAL INFORMATION ...
Sale order is catalog order! Any additional information or corrections to the printed sale catalog will be available online at www.wagyu365.com

AIR TRANSPORTATION ...
Las Vegas, Nevada Airport (LAS)

SATURDAY, DECEMBER 3, 2022

"DA VINCI 1" ROOM
BELLAGIO HOTEL & CASINO
LAS VEGAS, NEVADA
(see map on Pg 4)

Visit www.LiveAuctions.tv to view the sale book & videos of live lots!

TERMS & CONDITIONS // Cattle will sell under the standard terms and conditions.

EMBRYO GUARANTEE // Any embryos sold as stated and are not guaranteed on conception. All embryo lots will have statements regarding each with their descriptions.

DESCRIPTIONS AND FOOTNOTES // Each consignor wrote and/or approved the descriptions that pertained to their lot or lots. Wagyu365 does not take any responsibility, in regards, to the guarantee of what was written. Any adjustments or corrections will be made at the time of the sale.

REGISTRATIONS, TRANSFERS AND EMBRYO TRANSFERS // Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners through the offices of the American Wagyu Association & American Akaushi Association. The fee is paid for by the seller.

PAYMENT // All lots must be paid for immediately following the conclusion of the Wagyu and Akaushi "On the Strip" Sale, unless prior payment arrangements have been made with any representative of Wagyu365. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.

DELIVERY // Buyers are responsible for any shipping cost pertaining to embryo purchases and transportation of the live cattle. Waygu365 buyers and sellers will work together to make this the easiest and most efficient process possible. Export details are listed on each lot.

LIVESTOCK MORTALITY INSURANCE // Any representative of the Wagyu365 team can assist any buyer with insurance regarding their purchases.

HEALTH PAPERS // All live cattle sold will be accompanied by an appropriate health paper for immediate shipment. Additional health testing may be required from some locations.

GENETIC CONDITIONS // Log onto www.wagyu.org and/or www.Akaushi.com and go to the animal search and results of the genetic testing will be found on the lot selling.

LIABILITY // All persons attending the sale, do so at their own risk, legal or otherwise for their safety. The consignors, sale management, and sales staff assume no responsibility or liability for property loss or any accidents that may occur.

Auction money and proceeds will be conducted under
Randall O. Ratliff, DBA R & R Marketing, P.O. Box 60097, Nashville, TN 37206. Bond # 7901027402 (U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration Packers and Stockyards Program)

WATCH LIVE & BID //

The entire auction will be showcased via video/ pictures and broadcast live through LiveAuctions.tv. If you have questions regarding bidding or logging on, please contact Chad Gordon, 580.678.1918 or chadgordon8g@gmail.com.

- CONSERVATORY, "O" THEATRE AND TICKET SALES
- UBER • RIDESHARE

Dear Wagyu Enthusiasts,

It is with great pride and pleasure that Wagyu365 welcomes you to the Wagyu and Akaushi "Vegas On The Stripe" Sale. The team members of Wagyu365 have worked closely with the select few Wagyu and Akaushi breeders in solidifying their entries for this unique sale. We couldn't be more pleased with the amount of interest in the promotion and the betterment of both breed. As you review the sale catalog, you will find some of the finest registered Wagyu and Akaushi cattle available for sale. These breeders have worked hard to showcase their genetics to the highest level to highlight in this sale. The consignors have outlined their thoughts on each of their lots and we look forward to showcasing them in the sale. Make plans to join us for this special sale event on of December 3rd. We start the day at 8:30 a.m thru 12:30 p.m. with a strong list of Industry speakers which are highlighted in this sales catalog. We will then have a social hour at 2.30 p.m. with the sale starting at 3 p.m. We are in the hopes you can attend the sale in person, but if you are unable we urge you to log onto www.liveauctions.tv. to participate. If you have any questions in regard to the sale, please feel free to contact me or any of my team members at Wagyu365.

We look forward to hosting one of the most premier Wagyu and Akaushi events to ever happen!

Randall O. Ratliff

LOT 1 ... LMR MS BOND 1799J

- B3F, CHSF, CL16FU, F11F, IARSF
- EMA 7.9, IM 2.6, Marble Fineness 0.33, Retail Beef Yield 0.5, BW -1.3, Milk 0, SRI 208, WBI 175, FTI, 192, F1TI 198
- **LMR Ms Bond 1799J** is a 1 year-old heifer who ranks in the **Top 1%** of the breed for **Marble Score EBV (+2.6)** and **EMA (+8.2).** She balances outstanding carcass traits with a very low BW EBV (-1.3) and above average indexes. Plus she is **FREE** of all genetic defects. She is the first Lone Mountain bred **Arubial Bond Q007** sired heifer made available at auction to date!
- **1799J's** dam, **LMR Ms Aoichi 5542C**, is a wonderful donor for the Lone Mountain program, producing 31 calves and **68** viable embryos to date. **5542C** ranks in the **Top 1%** for **BW EBV (-3.4).** A daughter of **LMR Aoichi 2468Z**, she combines the best of the best blending: **TF148, Michifuku**, and **Kitaguni Jr**. in her pedigree.
- **5542C's** dam, **LMR Ms Kitaguni 2305Z**, ranks in the **Top 1%** of the breed for **BW EBV (-3.6)** and was sired by **WKS Kitaguni Jr** who is a **Wagyu Trait Leader** (and in the **Top 1%**) for **BW EBV (-3.4)** and a valuable son of **Kitaguni 7-8 J1530** and grandson of **Dai 7 Itozakura J65**, born in **1994**. The **Dai 7 Itozakura** line, began in **1970**, is derived from **Fujiyoshi** cattle in **Okayama Prefecture** and widely known for frame size, good weight gain and gentle nature.
- **LMR Ms Bond 1799J** is sired by **Arubial Bond Q007;** an outstanding son of **Mayura Itoshigenami JNR 0139** – whose genomically enhanced EBVs, with **413** progeny analyzed, are equal to and in some cases exceed his sire: **MS EBV +3.4 and EMA EBV +12.1 –** *both trait leading in the breed* (plus a **BW EBV -2.8). BOND** ranks in the **Top 3%** for the Indexes (**SRI, FTI & F1T): $261, $238, and $248. BOND** has higher carcass EBVs than both his sire, **A0139** and his half sib, **Mayura L0010**.
- **1799J** sells open ready to breed/flush.

- Sells Open
- B3F, CHSF, CL16F, F11F
- Ms Blossom is a extremely rare high Kedaka/Tottori female. She has an interesting pedigree, 75% Kedaka, and is the full sister of Lord of the Rings, a bull at Sexing Technologies. She is a direct daughter of Shigefuku "Westholme 005" an exceedingly rare 100% Kedaka/Tottori bull and son of the legendary Japanese bull Dai 20 Hirashige. Dai 20 Hirashige J287 is one of the most significant bulls of the Kedaka line, which was established in the Tottori Prefecture from descendants of the sire Kedaka J7212, born in 1959. Born August 18, 1978, Dai 20 Hirashige was extraordinarily long-lived, 19 years and 8 months, producing over 70,000 calves. A statue of him stands in Kanoya City, agoshima Prefecture.

- A.I.'d to Shigeshigetani 10/5,PE 10/6 to CHR Sanjirou 904
- Buyer will also receive 1 Grade 1 & 1 Grade 2 Conventional Embryos out of SHIGESHIGETANI)
- SCD VV
- Tenderness 5
- Haruki Nami B266 is a powerful cow with a spectacular pedigree. Her genetics form a faultless foundation that feature a beautiful blend of growth and carcass traits which are enhanced by the transmitting power of the Takeda Hikokura maternal line. B266 is a perfect example of the kind of brood cow that her sire, Haruki II, makes. Haruki II is the ideal bull to cap B266's stack of high Tajima sires which are TF148 Itoshigenami x Yasufuku Jr. x Michifuku. These proven foundation sires pack carcass performance into a pedigree that already featured growth and size through TF Kikuhana and the tremendous brood cow, CHR Kikuhanahime. The popular bulls Kitaguni 07K and Takazakura 101L descend from Kikuhanahime.

- Tenderness 4
- Confirmed five months pregnant and due February 12, 2023. This cow is sired by WK's Be irou (Haruki 2 / Okutani) and out of a dam sired by LMR Yojimbo (Fukutsuru-068, Yasufuku Jr., Michifuku, Suzutani, who is the original high-selling bull that sold for a record $35,000 at the first Lone Mountain sale) and is in turn out of a cow with Takazakrua, Michifuku, Kikuhana and out of the foundation cow Chisahime 662. A high-Tajima-line pedigree that should produce outstanding carcass qualities. She is currently confirmed pregnant from an AI breeding to LMR RMW Itomoritaka 1430Y (FB14234 - the "Rocky" bull), a bull that brings outstanding size and maternal characteristics while also having very good carcass qualities. SCD/Tenderness VA/4. Free of the known genetic recessive disorder genes including IARS.

- A great Hikokura maternal line based cow, she combines this with popular sires TF 813 and TF 726. These build a balanced base of marbling, growth, and maternals. She is line bred to TF 813 and TF 726 as they show up twice each in her four-generation pedigree. Not to mention the heavy presence of Kimifuku 3. He is renowned for being the bull Takeda regarded as his best marbling sire. This is a solid female to breed around for the future.

LOT 19A ... PV KINUSURUKIKU 939J

- Sells with guarantee to be registered in USA and in Australia.
- B3F, F11F, CHSF, CL16F, IARSF
- These two bulls just recently arrived at Hawkeye Breeders and will be prepared for collection for the new owner (s).
- This is a FIRST and RARE OPPORTUNITY to obtain modern and proven elite Blackmore Wagyu seedstock right here in the USA! We have kept this exciting package "hidden in the front pasture". Out of a contemporary group of 14 bulls of various elite genetics, PV939J proved to be the largest ribeye and fastest growing at 400 days. On the dam side of PV939J is M831, a very special cow bred by Bruce Hemmingsen of Ultimate Kobe Beef (UKB). Blackmore and Hemmingsen know Wagyu; they were both original Wagyu breeders involved in Wagyu importations in the 1990's. The late Eldon Clawson scoured the Wagyu breed for cows he felt he could build an elite herd upon. Eldon spent countless hours and trips to review the UKB herd and hand selected both M831 and her dam saying: "they are the two most functional fullblood black wagyu cows I have seen in the world". After sitting through a conference presentation by Eldon, David Blackmore commented: "Eldon's talk was the best presentation on Wagyu phenotype I have ever heard outside of Japan". M831 is stacked with two of the rarest original Westholme import bulls in Kitatsurukiku Doi "007" and Dai Seizan "006". The strong foundation of M831 starts with the original import cow, JVP Kikuhana 298. Jerry Reeves once remarked that JVP 298 was "probably the best of the original import cows."
- On the sire side ... PV939J is a real, live Blackmore Wagyu H224 sired bull! The following comments on H224 are kindly offered directly from his owner David Blackmore himself: "Blackmore Kinusurukiku H224 is a rare 100% Tajima bloodline bull. Even rarer for the Tajima bloodline, he is tested free of all recessive genes. His inbreeding co-efficiency is gene tested at 16.47%, low for the Tajima bloodline. His dam is an exceptional breeding brood cow, not only producing another exceptional sire in Blackmore Kinuzuru E006, weighing 2450 lbs, but she also produced carcasses CW 1036 lbs, EMA 116 cu cm, MS 9+ and CW 1161 lbs, EMA 107 cu cm, MS 9+. We are now using H224 wherever we can in our herd to breed carcasses as we estimate that carcasses sired by him are valued at $1,000 more than our average carcass value! H224 has an exceptional length of body; along with the consistently high MS from H224-sired carcasses, length is where we get exceptional value from his offspring. At this time, we do not have any H224 semen qualified or available for export."

- Sells with guarantee to be registered in USA and in Australia
- B3F, F11F, CHSF, CL16F, IARSF
- These two bulls just recently arrived at Hawkeye Breeders and will be prepared for collection for the new owner (s).
- CHECK OUT THIS GUY!
- In PV1118J's pedigree are ultrarare and elite genetics never before presented for sale in the USA! Not only do these bloodlines have a proven history of elite performance, they also offer extremely critical outcross genetic options.
- PV1118's sire, 700Z, is sired by Westholme 007 Kitatsurukiku Doi, a 100% Tajima bull. Westholme bred 700Z; he remains the only direct offspring of Westholme 007 ever available in the USA and is no longer available for sale. Westholme has always very tightly held the genetics of 007. David Blackmore with Blackmore Wagyu in Australia pursued 007 and has since proven the most elite 100% Tajima bull bred outside of Japan, Blackmore H224. In recent years, the respected Wagyu Sekkai program also pursued, and paid handsomely for 007 genetics for their own program. 007 is sired by Dai 2 Yasutsuru, the same sire as the former #1 USA marbling king Fukutsuru 068. Dai 2 was the 10th of 16 offspring of the famous Hyogo cow Kikutsuru (FB308). Kikutsuru is the Tajima female in Japan whose bloodlines have likely been deliberately linebred the most and her bloodlines have consistently and repeatably produced the top AI stud sires in Japan, including the famous bull Tanifuku Doi. Longevity and consistent highly marbled carcasses are what is expected from the Kikutsuru lines. The beautiful dam of PV1118J, CHR Ms Kimifuku 542, is one of only two living Wagyu which combine the ultra-elite sires of TF151 and Kimifuku 3. Our experience is that Kimifuku 3 blood yields carcass quality on par with TF148 and even exceeds him in the realm of extremely desirable flavor. Circling back, Kimifuku 3 is another 100% Tajima bull who is bred out of the famous Hyogo cow, Kikutsuru. PV1118J combines elite 100% Tajima Kikutsuru bloodlines with the Kedaka bloodlines that brought us the elite TF151 Itozuru Doi. He is a young, very strong, very growthy bull guaranteed to breed!

- Tenderness 4
- CHR SANJIROU 904F ET is sired by the ultra-rare bull, Sanjiro 3 who is the current #1 Marbling EPD bull on the 2017 WSU Sire Summary. Sanjiro 3 is a Michifuku son of World K's Suzutani and a full brother to the famous World K's Kanadagene 100 and World K's Sanjirou. You can reliably expect extreme marbling and large ribeye area from this bull. Sanjiro 3 is dead and his semen is virtually impossible to find, get these genetics while they are available! His dam is an National Western Stock Show Champion with Itomoritaka and Hirashigetayasu in her pedigree. Both are trait leaders in Australia's Breedplan for milk and weaning weights. This makes 904F a perfect blend of carcass traits, growth, and maternals!

- DAM GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, F13, IARSF, SCD AA, Tenderness 4
- Sired by the leading carcass proven bull in the breed Mayura Notorious! Notorious is a son of the world-renowned Mayura Itoshigenami JNR. Notorious' dam is Mayura Stations leading carcass proven cow (produced 4 carcasses, utilizing M technology Ave MS 11, EMA 110.25, HSCW 449.375kg, Ave 302 DOF). She has transmitted her massive ribeye area and marbling to Notorious who has a leading +16.5 EMA and +3.0 MS, and +39 CW in Breedplan and backed up by 20 carcasses. His semen sold to a record $57,500 USD/straw in the 2022 Double 8 Sale.
- The dam of this pregnancy is a linebred TF 151 daughter! TF 151 is considered by many to be the GOAT (Greatest Of All Time) of the foundation bulls. Why, because of his proven carcass performance: In the Blackmore Wagyu herd across 325 carcasses on feed for 650 days he averaged a 1,005 lbs. HCW, 14.8 In2 REA, and 302 of 325 graded a MS 9 or 9+! This is balance and consistency at it's best. Combined with Notorious this will make an extremely balanced and elite animal!

- SIRE's GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, 1ARSF
- DAM's GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, SCD VA
- Here is an early offering of a pregnancy from the record setting Mr. Universe bull who sold for $190,000 in the 2022 M6 Bull sale. He is a son of the popular and leading sire Mayura L0010. He is phenotypically impressive with length of body, body depth, and spring of rib. He ranks Top 1% for all four Indexes and features elite EBVs of 2.2 MS, .35 MF, 62 CW, 5 MK, 34 200D Wt, 55 400D Wt, and 81 600D Wt! The dam of this pregnancy is a rare Shigefuku daughter. Shigefuku "Westholme 005" an exceedingly rare 100% Kedaka/Tottori bull and son of the legendary Japanese bull Dai 20 Hirashige. Dai 20 Hirashige J287 is one of the most significant bulls of the Kedaka line, which was established in the Tottori Prefecture from descendants of the sire Kedaka J7212, born in 1959. Born August 18, 1978, Dai 20 Hirashige was extraordinarily long-lived, 19 years and 8 months, producing over 70,000 calves. A statue of him stands in Kanoya City, Kagoshima Prefecture. This lot combines leading GEBVs with vintage Kedaka genetics!

- **Mayura Itoshigenami Jnr 0139**, the sire of this lot, needs no introduction as he is the undisputed **"King of Australian Sires."** His semen has sold to a world record **$70,000** per straw and live progeny have sold to **$280,000**. **JNR** is a true once in a generation sire and the foundation of the **Mayura Station** branded beef program. He has more than 1,000 carcasses in the Mayura herd consistently grading **AUS-Meat 9+,** with leading ribeye area and carcass weight at a young harvest age. This translates directly to his breed-leading ebvs ranking in the Top 1% for **MS (+3.1), MF (+.45), REA (+9.0),** and **ALL** Indexes: **WBI ($277), SRI ($308), FTI ($275) and F1T ($265).**
- **JNR** is a breed changing sire that is as proven as they come. This is an amazing opportunity to procure a mating of **JNR** and **L10** two of the most sought after sires in one pedigree!
- **LMR Ms Mayura 0510H** is one of Lone Mountain's rising stars. She has already produced **49** viable embryos. **0510H** also ranks in the **Top 10%** of the breed for **FTI (+194) and F1T (+179)** while posting an impressive **EBV** for **Milk (+4). 0510H's** dam, **LMR Ms Hirashigetayasu Z278 9312W** was a noteworthy Lone Mountain donor before her accidental death at 10 years of age, producing **55** viable embryos in **7** flushes (averaging almost **8** embryos per flush) and 35 calves including a steer by **LMR Aoichi 2468Z** that graded **49% IMF** at harvest.

- SIRE GENETIC INFORMATION: B3F, CHSC, CL16F, F11C, F13F IARSFU
- DAM GENETIC INFORMATION: B3FU, CHSFU, CL16FU, F11FU, IARSFU
- Located at Vytelle, Ranger, TX
- **Mayura Itoshigenami Jnr 0139**, the sire of this lot, needs no introduction as he is the undisputed "**King of Australian Sires.**" His semen has sold to a world record **$70,000** per straw and live progeny have sold to **$280,000**. **JNR** is a true once in a generation sire and the foundation of the **Mayura Station** branded beef program. He has more than 1,000 carcasses in the Mayura herd consistently grading **AUS-Meat 9+,** with leading ribeye area and carcass weight at a young harvest age. This translates directly to his breed-leading ebvs ranking in the **Top 1% for MS (+3.1), MF (+.45), REA (+9.0),** and **ALL** Indexes: **WBI ($277), SRI ($308), FTI ($275) and F1T ($265).**
- **Mayura Itoshigenami Jnr 0139** semen is very rare. Get these embryos sired by this breed changing sire while you can.
- **LMR Ms Haruki 1297Y** is a ten-year-old donor, ranking in the **Top 5%** for **Ribeye EBV (+6.5).** Her 35 progeny includes carcasses by **Kitaguni Jr** that graded **41% IMF** and a **LMR Kitaguni 1441Y** grading **52% IMF**! **1297Y** has produced **103** viable embryos in 14 flushes.

- DAM GENETIC INFORMATION: B3FU, CHSFU, CL16FU, F1133%, IARSF
- Storaged at Keystone Embryo Transfer, Greencastle PA
- Embryos sired by one of David Blackmore's best carcass proven sires! Blackmore Dai Ichi Yasuchiyo G615 is an ideal largely outcross blend of Yasufuku Jr, TF Kikutsurudoi 146, TF Itozudoi 151, and JVP Fukutsuru 068. G615 is backed up by over 240 carcasses in the Blackmore program and is an all-round super star consistently producing elite marbling, large ribeye area, and heavy carcass weights. He does not sacrifice any growth and maternal traits either producing amazing cows and himself weighing in at 2,486 lbs as a mature bull! G615's dam Y377 is famously one of David Blackmore's best cows having produced 6 carcasses all MS 9+ with a huge average Ribeye of 14.7 in2 (94.9 cm2) and average HCW of 992.2 lbs (451 kg). G615 is a very important sire in the Blackmore breeding program, being used to improve all aspects; breeding females, carcass quality and weight, and as a sire of our next generation of breeding bulls.
- The dam I here is a one-of-a-kind Suzutani donor dam! She is an 003 x Michifuku x Suzutaka 2. To top her legendary pedigree off, she possesses elite carcass traits GEBVs. Her genomic Marble Score is +1.9, +4.7 REA, and +.34 MF! Her pedigree of 003 x Michifuku x Suzutanis mirrors that of legendary proven sires Longford 005, Longford 004, and Longford Mr Awesome's granddam. Her carcass traits are an ideal cross with the powerhouse Blackmore sire G615!

G615's dam Y377 is famously one of David Blackmore's best cows having produced 6 carcasses all MS 9+ with a huge average Ribeye of 14.7 in2 (94.9 cm2) and average HCW of 992.2 lbs (451 kg). G615 is a very important sire in the Blackmore breeding program, being used to improve all aspects; breeding females, carcass quality and weight, and as a sire of our next generation of breeding bulls.
- The dam here is an elite World K's Michifuku donor dam! She boasts elite EBVs of $207 SRI, 1.6 MS, 4.3 REA, .35 MF, and 15 CW. She is one of only 17 Michifuku daughters with those trait benchmarks. 509F features an impressive sire stack to back up her GEBVs of World K's Michifuku x 001 x World K's Shigeshigetani x TF 151 x TF 148 x Hikokura 1/10! Her full brother scored a MS 9+ on our carcass camera for us at only 27 months of age (HCW 920 lbs)!

- These embryos represent rare linebred Westholme genetics through the sire Q38 and dam M131 both of which come from the Umeko maternal line. Q38 is one of the most balanced bulls in the breed with elite growth, +2.2 MS, +.42 MF, and +52 CW! He is a high GEBV son of the super sire Sumo Cattle Co Michifuku F154 from an outcross, exclusively Westholme bred maternal line, his dam being Westholme K5241. Westholme K5241 is a rare daughter of the Westholme super bull Hiramichi Tsuru, and her pedigree is backed by 001 x 002 x 003 x original import Umeko, who was double bred to Dai 20 Hirashige and is one of the few high Kedaka/ Tottori females exported from Japan. Q38 is one of the highest ranked bulls under 50% Tajima, featuring astounding 22.5% Kedaka/Tottori by blood! Q38 is tested free of all recessive disorders.
- The dam Kaputar M131 is one of our favorite Australian donors with tremendous frame, depth, and capacity. Also, from the Westholme Umeko maternal line with tremendous growth and maternals, illustrated by her genomics of +7 Milk, +61 600D, and+61 Mature Cow Weight. Not to mention her +1.4 Marble Score! Get into elite Westholme genetics with these embryos!

- Stored at Keystone Embryo Transfer, Greencastle PA
- Sired by Blackmore Kinuzuru E006 who combines of the famous sire TF Itozurudoi 151 and the Kinu 1, Naki-doi line of the Tajima strain which has resulted in a large bull with deep heart room, good spring and depth of rib. Kinuzuru E006's dam, Blackmore Kinu Y385 is a large cow and a descendant of one of the only 100% Tajima cow's ever to leave Japan, Kinu 1. Note carcass data of her progeny; 442 kgs HCW, 9+ MS, 105 EMA; 470 kgs HSCW, 9+ MS, 116 EMA; 527 kgs HCW, 9+ MS , 107 EMA. Progeny from this combination increases overall body size, while also increasing the eye muscle area and the fineness and even distribution of marbling throughout the carcass. The growth in E006's progeny on feed is excellent. Kinzuru E006 is the full brother to Blackmore Kinuko E010, who is the dam of Blackmore Kinuzurudoi K730. He is one of Blackmore Wagyu's superior proven breeding bulls from the Kinu family.
- E006's growth and carcass traits balance is an ideal match for this Suzutani maternal line donor. She has a sensational sire stack of Haruki 2 x Michifuku x JVP 068 x Takazakura x Haruki 2 (Full Sister to Shigeshigetani) x Suzutani! This donor, SYNERGY HARU Y5 SUZU, has genomic tested with the fantastic growth, maternal traits, and ribeye area of her sire Haruki 2. This mating combines the Kinu and Suzutani maternal lines ideally into one pedigree! These embryos will form a solid base for future breeding and flush programs.

- Stored at Trans Ova, Sioux Center, Iowa
- The sire of this lot is the ultra-rare bull, Sanjiro 3 who is the current #1 Marbling EPD bull on the 2017 WSU Sire Summary. Sanjiro 3 is a Michifuku son of World K's Suzutani and a full brother to the famous World K's Kanadagene 100 and World K's Sanjirou. You can reliably expect extreme marbling and large ribeye area from these embryos. Sanjiro 3 is dead and his semen is virtually impossible to find, get these embryos while they are available! The dam here is an National Western Stock Show Champion with Itomoritaka and Hirashigetayasu in her pedigree. Both are trait leaders in Australia's Breedplan for milk and weaning weights. This makes a perfect blend of carcass traits, growth, and maternals!

- DAM GENETIC INFORMATION: B3FU, CHSFU, CL16FU, F1199%, IARSF
- Stored at Colorado Genetics, Loveland
- Sired by the leading Mayura L0010, a son of Mayura Itoshigenami Jnr. Mayura L0010 ranks in the Top 1% for Marble Score EBV and Ribeye Area EBV and in the Top 1% for all 3 Wagyu Indexes: Self-Replacing, Fullblood Terminal and F1 Terminal Index. In 2017, he sold for $105,000! L0010's dam, Mayura H0159, reflects Itozurudoi TF151 and Kanadagene 100 bloodlines from the Aizakura maternal line. Mayura L0010 was sired by Mayura Itoshigenami Jnr, often referred to as "King of Australian Wagyu Sires". The dam is a combination of Shidoosha, CHR Hirashige 170P, and Michifuku genetics. This is a solid pedigree of wagyu genetics to build from for any new breeder.
- LMR Ms Itoshigefuji 0206X, is an astounding donor cow by Itoshigefuji TF147 out of a dam by Itoshigenami TF148, producing 25 viable embryos in only 2 flushes. 0206X has produced 10 calves, with only 2 harvested thus far: Michifuku steer graded 47.77% IMF (VAB100 as graded by USDA) and LMR Shichiro 2403Z steer graded 38.87% IMF.

- SIRE GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, IASF
- DAM GENETIC INFORMATION: SCAA, Tenderness 5
- Stored at Elgin Breeding Services, 875 Central Ave, Elgin, TX 78621, 512.285.2019
- Countless people have the desire for a top 1% Wagyu animal – there are just a few available. This dynamic mating gives you a chance at a 1% wagyu at a fraction of the cost. This powerful mating of the leading wagyu sire in the world, Arubial United P0342 and a top 10% Shigeshigetani female, LMR MS Shigeshigetani 1210Y.
- Arubial United P0342 (MYMFP0342) is one of the top proven growth and marbling sires in world today. He is the #1 WBI ($388), #1 ranked SRI ($372), #1 FTI ($329) and #3 ranked F1TI ($282). The projected mating reflects top 1% Selection Indexes for SRI (+$292), WBI (+$299), and FTI (+$251).
- United P0342 bull is a world leading fantastic balanced bull with breed leading genomic EBVs. He is in the top 1% of the breed for all 4 Indexes and is highlighted by his +2.5 MS, +2.8 REA, +72 CW, +5 Milk, and +82 600-Day Wt! He is sired by the Sumo F126 bull who has averaged an 8.6 MS in the Sumo herd and is stacked on a highly proven Macquarie Wagyu cow.
- The mating pairs him to a top 10% female out of the Lone Mountain program, LMR MS SHIGESHGETANI 1210Y. This female projects top 1% EMA (+8.9) and top 10% or better Selection Indexes with WBI (+$210), SRI (+$212), and FTI (+$174).
- Here is your chance to take your breeding to the top with this world leading sire and top female.

- SIRE GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, IARSF
- DAM GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, IARSF
- Stored at Elgin Breeding Services, 875 Central Ave, Elgin, TX 78621, 512.285.2019
- This elite embryo package features three conventional embryos from the #1 wagyu sire in the world, Arubial United P0342 (MYMFP0342). He is one of the top proven growth and marbling sires in world today. He is the #1 WBI ($388), #1 ranked SRI ($372), #1 FTI ($329) and #3 ranked F1TI ($282).
- He is paired with marbling F154 daughter out the famed Sumo program, Sumo Cattle Co Fuku P528 (SMOFP0528).
- With the November 2022 BREEDPLAN update, a review of the projected mating EBVs shows top 3% Marble Score of (+2.3), top 3% Marble Fineness (+0.39) plus top 3% Section Index ratings WBI (+$264), SRI (+$264), FTI (+$234), and F1TI (+$210).
- United P0342 bull is a world leading fantastic balanced bull with breed leading genomic EBVs. He is in the top 1% of the breed for all 4 Indexes and is highlighted by his +2.5 MS, +2.8 REA, +72 CW, +5 Milk, and +82 600-Day Wt! He is sired by the Sumo F126 bull who has averaged an 8.6 MS in the Sumo herd and is stacked on a highly proven Macquarie Wagyu cow.
- The dam of this mating, Sumo Fuku P528 (SMOFP0528), is a F154 daughter and is free of all recessive genetic conditions. Sired by Sumo Michifuku F154, who has consistently produced profitable carcass results averaging: M/S 8.6 and C/W: 462kg over 21 analysed progenies. P528's pedigree contains a double dose of the premier foundation cow: Hikohime 3/2, who is famous for producing the direct maternal champion sires: Coates Itoshigenami G113, Sumo Michifuku F154 and Sumo Hirashigetayasu E148. P528's dam J461 and granddam E150 are prolific donor females, with high predictability to produce outstanding embryos. P528 has followed in their footsteps with outstanding embryo production.

- DAM GENETIC INFORMATION: SCD VV
- Stored at Hoffman AI Breeders, Logan, Utah
- Embryos sired by Sumo Michifuku F154, one of the highest scoring and most balanced carcass proven sires of all time: Elite EBV's for Marbling +2.4, Marbling Fineness 0.51, Carcass Weight +32, and Self Replacing Index $310. He is a top proven bull with high accuracy levels and carcass data to back up his elite level GEBVs. In the Sumo herd he has averaged an 8.3 MS and 449 Kg (988 lbs) HCW over 34 carcasses.
- The dam here is an ultra-rare granddaughter of the little known "Westholme 006" Dai 6 Seizan. Her sire UKB DAI 6 Kitaseki is all Westholme breeding with a high Kedaka/Tottori influence. His sire is Dai 6 Seizan "Westholme 006" and his dam is direct Westholme import cow Kitasekiro. She is a higher Kedaka cow bringing outcross genetics. Don't miss that further back this cow traces directly to Okutani!

- Here is an embryo package that we here at Wedekind Farms are extremely excited about. This mating combines the top available SRI bull in the world, Arubial United P0342, with an impressive young female out of the elite Lone Mountain Cattle Company, LMR Ms Mayura 0741H. 0741H has proven to be an outstanding donor for our program with impressive carcass traits and the docility and disposition you dream of. These embryos project to be in the top 1% of all breed indexes based on the latest October breedplan data, with an excellent SRI of $292 predicted! Don't miss out on this opportunity to add superior genetics to you wagyu herd.
- We guarantee at least ONE pregnancy if transferred by a certified embryologist!

- Low risk and high performance probability are the two main keys to breeding success and profitability. These embryos are that kind of investment.
- Michifuku F154 has extremely superb EBV's for both marble score and carcass weight. And, with all three indexes in the top 1%, it makes him not only sought after but one of the best bulls around. He is 67% Tajima and 23% Itozakura and 4% Shimane. He was born in 2010 so his stats are beyond proven. This bull is a trait leader for both marble score and carcass weight.
- Kikokage 29A is a super mix of bloodlines: 32% Tajima, 26% Kedaka, 35% Shemane, 7% Oklahoma. She is very closely related to the original Japanese genetics. Her 6th dam, Yuriko-1, is one of the very few cows which exported from Japan to the USA. She is a SCD VA, 7 Tenderness.
- These embryos are a high reliability investment in fantastic genetics.

- The female to these embryos is the largest female in the Pacific Rogue Wagyu herd. She brings great size while delivering very high grade carcasses. This comes from her sire TF-Itomichi 1/2. This bull produces quality carcasses with large frame size. He consistently increases mature size and growth rate without reducing marbling. He adds good maternal traits including very good milking ability in his female offspring. He is sired by the great Itomichi, one of seven sons out of more than 1,000 to outperform his sire, Dai 7 Itozakura.
- Her dam was a donor cow from the renowned crescent harbor ranch! CHR MS Michifuku 433 is loaded with some of the highest marbling and carcass genetics including Michifuku and Kitiguni jr.

- How do you decide which animals to flush in your herd? Do you look at conformation, physical size, disposition, SCD/tender- ness, parentage? When you are one of the oldest continuous Wagyu breeders in the US and world you have quite a few tools in your toolbox to chose from. The Knox family, located in beautiful coastal Oregon, and their associated family beef business, Pacific Rogue Wagyu, use almost two decades worth of carcass information and data.
- The female that the Knox family has chosen to offer embryos for sale is none other than PRW Ms. Yasufuku-B82 (FB 21585). 82, as she is called by the Knox family members, is the #1 marbling cow in their herd in terms of carcass data with over 400 carcasses analyzed.
- In addition to excellent carcass data, 82 is possessive of an SCD of AA (the most favorable) AND a tenderness numerical value of 9 (amongst the highest possible).
- Meat pic is from fb -21585 X fb-8979 the bull semen 8979 is also being offered in this sale by Pacific Rogue Wagyu.

- Located at TransOva 743 Gage Blvd, Richland, WA 99352, contact: Taryn Coffman, 712.722.3597
- An absolute incredible genomic find in the US! A female that has in her visible Wagyu digital beef pedigree Okutani AND Suzutani! PRW Ms. Okutani 83A (FB3074). A descendant from the 5th and 11th Wagyu ever born outside of Japan (Yoshitani FB2411) and (Moriyama FB2410) Knoxes Moriyama is the flush mate of world-renowned World K's Shigeshigetani! From Yoshitani's very last female born in 2000 (KGW 00012 FB9128) mated to the oldest still living TF 151 son perhaps in the world! CHR Itozuru Doi 2408 (FB 8789) semen sold in the 2021 Wagyu on the Vegas strip sale for $1,850 a straw. Sired by Tyddewi N4431, a son of the breed leading sire Mayura Itoshigenami JNR. Itoshigenami JNR semen is currently not available on the market and recently 2 straws sold to a high of $70,000 per straw! Mayura Itoshigenami JNR carries elite high reliability EBVs because of his superior carcass data. In Mayura Station's herd, he has averaged a 9.05 MS, 448kg (986lbs.) HCW, and 109.0 cm2 (16.9 in 2) EMA on an astounding 805 carcass harvested at just 26 months. This makes Tyddewi N4431 a unique combination of elite Mayura Station and Westholme bloodlines Through his dam Westholme J0147, he receives growth and carcass traits from the top Westholme lines of Yoshuifuji 8 and Yamafuji. These are two high Shimane influenced (through Dai 7 Itozakura) Westholme foundation cows. N4431 has massive genomic figures of +2.4 for MS, +5.4 for EMA, +30 for Carcass Wt, and +$295 Self Replacing Index.

- Low risk and high performance probability are the two main keys to breeding success and profitability. These embryos are that kind of investment! This offering pairs the proven Itomoritaka FB681 son, Rocky, with Winfy 91W, a daughter of SR Y13 Sanji. Windy has been tested resulting in a SCD AA and 5 tenderness. Rocky, son of Itomoritaka J2703 and Sanjirou 767T, tested a SCD AA and 7 tenderness. These embryos are a high reliability investment in fantastic genetics.

- Stored at Premier Reproductive Services, 6601 Granbury, Hwy. Weatherford, TX 76087, 817.99.7721
- Sanji is a great cross of Sanjirou which is linebred Ysumi Doi, to a daughter of Kitateruyasudoi 003, one of the great marbling bulls of our time. Sanji's dam is a full siser to 005 Shigefuku 13M's dam. This is a tremendous cow family. Sanji is well balanced, has great thickness and length, and has the thickest loin of any of Sanjirou's sons. He is throwing great marbling in his calves.
- Laura, 99W, is one of the truly elite Shigeshivgetani daughters as she descends from the highly proven, original import female Okutani. She traces directly to Okutani through breed greats Shigeshigetani, Michifuku, and Haruki II. Laura has tested SCD VA, Tenderness 4.
- The mating with Sanji brings a touch of high genomic genetics to a highly proven pedigree. Expect superior next generation results and propel your breeding program to the next level of performance!

- DAM GENETIC INFORMATION: B3FU, CHS3%, CL16FU, F113%, IARS2%
- Located at Trans Ova, Maryland
- STUD 417 is as well balanced as any female in the breed. Positive scores across all 14 categories, Gestation, Eye muscle, Marble score, Positive Carcass weight as well as maternal traits. She is a full sister to one of the most expensive females to ever sell in the USA as well as being the dam of the #1 indexing daughter of Michifuku in the USA. She stacks a pedigree of royalty. She does all this free of any recessive defects. She is the perfect canvas for creating herd building foundation stock. Joined here to a top 1% growth sire in Hiramichi Tsuru the famed son of the Hatsuhi female. A star from the Westholme program, this mating is one of few that combine sire and dam with so many "common" positive traits. These calves will be special!

DAM ... STUD HIKO 417 (ET)

- DAM GENETIC INFORMATION: B3FU, CHS3%, CL16FU, F113%, IARS2%
- Located at Trans Ova, Maryland
- Q85 is a direct son of the famed Coates Itoshigenami G113 out of a F154 Dam bred by the Sumo program to be one of the next super sires. Will he be? All indications are yes! With a breedplan genomic EBV profile showing a CWT, three times breed average and EM and MS that also trounce breed average and all in a recessive defect free package. As a three-year-old sire with 38 registered progeny in Australia already (Mayura L0010 only had 10 by age three and added an additional four as a four-year-old) we would say somebody believes! His semen has only been offered a few times till this point and has commanded thousands. Here he has been paired with, our star donor STUD HIKO 417, herself a special genomic package also recessive defect free.
- Two embryos of this mating were sold in the Frozen Gold sale in May for $2,800 each, this is your chance to get Q85 calves on the ground first, before he becomes the next mainstream super sire! As well as the probability that these may be the highest indexing calves from Q85 in the USA.

- SIRE GENETIC INFORMATION: B3F, CHSC, CL16F, F11F, F13F, IARSFU
- Located at Hawkeye Breeders, Adel, IA
- Check out this unbelievable opportunity. The resulting calves from this mating will be full siblings to the #1 Marble Score bull in Breedplan, Wynford Itoguni! Itoguni semen sold for $6000 earlier this year. The sire of these embryos is Mayura L10, who has been the most popular son of the carcass king, Mayura Itoshigenami JNR. JNR and L10 semen is in incredible demand whenever or wherever it sells. L10 has a tremendously balanced EBV profile with great carcass traits which has been passed on to Wynford Itoguni, the full brother to these embryos. The donor dam, Kitaguni 6301D, has a very attractive EBV of +2.5 for Marble Score herself. The calves that result from these embryos are destined for greatness!

- The genetics in this embryo package are maternal siblings to the #1 Marble Score bull in Breedplan, Wynford Itoguni! The sire of these embryos, Sumo F154, has been heavily used internationally and is now a high accuracy, proven sire. His progeny have excellent size and fantastic carcasses. Here he is paired with LMR MS Kitaguni 6301D to provide a very special genetic opportunity. 6301D scores +2.5 Marble Score in Breedplan and writes a super pedigree that traces back to the JVP Kikuhime cow through proven sires such as TF148 Itoshigenami, Michifuku, Fukutsuru 068, and Kikuyasu 400. These genetics are the total package!

- SIRE GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, IARSF
- Located at Hawkeye Breeders, Adel, IA
- Here is a genetic package that features two of the hottest genomic EBV bulls of the entire breed! The sire of the embryos is the amazing Arubial United who continues to sit at the very top of the SRI ranking in Breedplan. United features breed leading growth with an MS over 2.0! The dam of the embryos, Sanji 391H, is a daughter of Mayura L10 whose progeny continually top the sales with a daughter recently selling for $100,000 and several son have sold for well over $100,000. Sanji 391H is a maternal line descendent of the elite donor Chisahime. Chisahime backed progeny have proven themselves many times over in the US and Australia. These embryos promise a very balanced profile by combining the excellent growth of United with the outstanding carcass traits of L10 and Sanjirou.

- MAYURA L0010, simply known as L10 is a Mayura bred World Super Sire. His progeny dominate public sales in N. America with an L10 daughter (LMRFR0353) selling for $100,000 and two L10 son's (M6RFR073H & LMRFS1749) selling for over $150,000 in 2022 (M6 Bull Sale & 2022 TWA Fall Harvest). You will see L10 progeny at the top of every major sale.
- He leads in the BREEDPLAN Selection Indexes for Wagyu Sires. A review of November 2022 BREEDPLAN, shows him as an elite sire (with proven progeny), with top 1% of all four - WBI (+$296), SRI (+$302), FTI (+$286), and F1TI (+$265). This amazing bull hits all four of the major profit drivers of top 1% Marble Score (+3.0), top 5% Marble Fineness (+0.36), and top 10% Eye Muscle Area (+5.2) and Carcass Weight (+43).
- L10 is the son of Itoshigenami Junior 0139 who has the title of, The King of Australian Wagyu Sires, and now has pass his sire on major selection indexes. L10's pedigree combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudoi, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudoi Y398, and Blackmore Dai Ichi Kikuzakura H017!
- Do not miss the opportunity to move your herd to the top with this amazing Australian bull. Size, marbling, eye muscle area and top 1% BREEDPLAN Selection Indexes, L10 has it all!

- Domestic only
- Stored at Elgin Breeding Services, 875 Central Ave, Elgin, TX 78621, 512.285.2019
- GENETIC INFORMATION: B3F, CHSC, CL16F, F11F, F13F, IARSFU
- L0010 is a son of Mayura Itoshigenami Jnr 0139. Mayura L0010 ranks in the Top 1% for Marble Score EBV and Ribeye Area EBV and in the Top 1% for all 4 Wagyu Indexes: Self-Replacing, Full-blood Terminal and F1 Terminal Index. In 2017, he sold for $105,000! L0010's dam, Mayura H0159, reflects Itozurudoi TF151 and Kanadagene 100 bloodlines from the Aizakura maternal line. Mayura L0010 was sired by Mayura Itoshigenami Jnr, sometimes referred to as "King of Australian Wagyu Sires", who has been at the top of the Australian Published Sire Reports since 2015. In 2016, 10 straws of 0139 were sold for $30,050 ($3,050 each); in 2019, one of his heifers sold for a record-setting $280,000 and a son sold for $185,000 in 2018. Mayura Itoshigenami Jnr semen just sold and averaged over $55,000 per straw, a world record. Mayura Itoshigenami Jnr is a proven progeny sire, a son of Itoshigenami TF148—and his dam features the genetics of San-jirou and Suzutani and TF Dai 2 Kinntou 3, an Itomichi daughter from the Hikokura maternal line.

- Stored at Elgin Breeding Services, 875 Central Ave, Elgin, TX 78621, 512.285.2019
- 073H, also known as "Mr Universe", is the record setting L10-sired bull from the 2022 M6 sale and sold for a record $190,000 (USD). A search of November (run_1) BREEDPLAN reflects 073H as an elite world sire with a #2 WBI ranking in the world and a #16 SRI ranking. He leads with top 1% in all four Selection Indexes including WBI (+$337), SRI (+$307), FTI (+$263), and F1TI (+$215).
- Phenotypically on the hoof, he has tremendous performance, length of body, and extra body depth with a bold spring of rib. On individual traits, he gives you the double shot of growth and marbling with top 1% on 200/400/600Day Weights, Mature Weights and Carcass weights. He scores top 4% on Marble Score (+2.2) and top 5% on Marble Fineness (0.34).
- 073H is a son of Mayura L0010, who has risen to the top in the wagyu world. He is free of all genetic conditions. 073H & L10's pedigree combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudoi, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudoi Y398, and Blackmore Dai Ichi Kikuzakura H017!
- "Mr Universe 073H" is a gen¬erational breeding tool with growth and marbling that will transform efficiency in the Wagyu industry in North America. He is free of all genetic conditions. Straws available for USA and Canada and now located in both countries.

- GENETIC INFORMATION: B3F, CHSF, CL16FU, F11F, IARSF
- Stored at Elgin Breeding Services, 875 Central Ave, Elgin, TX 78621, 512.285.2019
- 122H, is an elite L10-sired bull and now ranks ahead of his world-leading sire Mayura L0010. Size, marbling and free of all genetic conditions – he delivers it all.

In the recent November 2022 BREEDPLAN, he ranks top 1% in all four Selection Indexes including WBI (+$346), SRI (+$320), FTI (+$275), and F1TI (+$229). On individual traits, he gives you the double shot of growth and marbling with top 1% on 200/400/600Day Weights, Mature Weights, and Carcass weights. He scores top 3% on Marble Score (+2.4) and top 5% on Marble Fineness (0.32).

- Recently, 0122H was selected for the 2022 AWA-PTP Progeny Study in Australia and was one of the top 5 bull tendered.
- Phenotypically on the hoof, he has tremendous performance, length of body, and extra body depth with a bold spring of rib. You can see that in the included video of 0122H.
- 0122H is a son of Mayura L0010, who has risen to the top in the wagyu world. L10 combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudoi, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudoi Y398, and Blackmore Dai Ichi Kikuzakura H017!"
- 0122H is a generational breeding tool with growth and marbling that will transform efficiency in the Wagyu industry in North America. 122H is free of all genetic conditions.

- GENETIC INFORMATION: B3F, CHSC, CL16FU, F11F, IARSF
- • Stored at Elgin Breeding Services, 875 Central Ave, Elgin, TX 78621, 512.285.2019
- M6 Ranch Itoshigenami 108J is an elite L10-sired bull and was one of the top selling bulls from the most recent M6 sale in April 2022. 108J is a ¾ maternal brother to "Mr Universe 073H". This elite North American born bull leads on BREEDPLAN in both size, growth, marbling, and carcass qualities.
- In the recent November 2022 BREEDPLAN, he leads with top 1% on Selection Indexes including WBI (+$299), SRI (+$298), FTI (+$253), and top 2% F1TI (+$226). On individual traits, he scores top 2% on Marble Score (+2.5) and Marble Fineness (0.36).
- 108J gives you the double shot of growth and marbling with top 10% on 200/400/600Day Weights, and Carcass weights.
- 108J is a son of Mayura L0010, who has risen to the top in the wagyu world. His dam side is stacked with WKS Michifuku and TF 151 Itozurudoi. L10'; pedigree combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudoi, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudoi Y398, and Blackmore Dai Ichi Kikuzakura.
- 108J appears to become a world leading breeding tool with growth and marbling that will transform efficiency in the Wagyu industry in North America. 108j straws are CSS and eligible for export to most major countries – please inquire for your country.

- GENETIC INFORMATION: B3F, CHSF, CL16FU, F11C, IARSF
- Domestic Only
- Storage Location: Brushy Creek, Taylor TX
- A rare, first – time in the US, semen offering of one of David Blackmore's best all-round proven sires and a 1st offering in the USA! Dai Ichi Yasuchiyo G615 is a combination of 20 years concentrated breeding that combines all of the successful bloodlines used in Japan. Dai Ichi Yasuchiyo G615's dam, Chiyotake Y377, is one of Blackmore Wagyu's outstanding proven bull mothers, being dam of Chiyozakura F349, Chiyohana F340 and Chiyofuku K733. His sire, Yasuchiyo C058 is a grandson of the famous Yasufuku (Nakadoi blood) who was bred as a result of line breeding to Yasumidoi. Despite the high percentage of Tajima bloodlines in Dai Ichi Yasuchiyo G615's pedigree, he is the largest and heaviest Wagyu bull we have bred to date, weighing in excess of 1000kg. Dai Ichi Yasuchiyo G615 is a very important sire in the Blackmore breeding program, being used to improve all aspects; breeding females, carcass quality and weight, and as a sire of our next generation of breeding bulls. Blackmore genetics are in huge demand – 2 bulls from Blackmore sold at auction earlier this year for $190,000 and $220,000!

Dai Ichi Yasuchiyo G615 is a combination of 20 years concentrated breeding that combines all of the successful bloodlines used in Japan. Dai Ichi Yasuchiyo G615's dam, Itochiyo A009 is line bred to the famous Japanese Hyogo cow, Kikutsuru (Nakadoi blood) six times in a seven generation pedigree. His sire , Yasuchiyo C058 is a grandson of the famous Yasufuku (Nakadoi blood) who was bred as a result of line breeding to Yasumidoi.

Despite the high percentage of Tajima bloodlines in Dai Ichi Yasuchiyo G615's pedigree, he is the largest and heaviest Wagyu bull we have bred to date, weighing in excess of 1000kg.

Dai Ichi Yasuchiyo G615 is a very important sire in the Blackmore breeding program, being used to improve all aspects; breeding females, carcass quality and weight, and as a sire of our next generation of breeding bulls.

The Genomic Estimated Breeding Values (GEBV) has been derived solely from the Blackmore Wagyu herd using; 10,903 genomic profiles imputed to 800K SNPs, five generation parent verified pedigrees and 5,345 full blood carcass results. The percentage accuracy of each GEBV is calculated from a combination of genomic markers, generation pedigree and carcass results.

The herd GEBV average is used to evaluate each animal by either adding or subtracting that animals' GEBV against the herd average. The Blackmore Wagyu herd average, based on the above combination, is EMA 89.40, FC 1.07, HCW 415.40, MS 9.15, P8 Fat 18.02, Rib Fat 20.12.

The 'blue text' within the pedigree is production results sourced from the Japanese progeny test program, the 'red text' is our GEBV (EMA, HCW, MS) and the Herd Carcass Data is the results from the Blackmore Wagyu production system.

- A rare, first – time in the US, semen offering of one of David Blackmore's best all-round proven sires and a 1st offering in the USA! Chiyofuku K733's dam Chiyotake Y377, is one of Blackmore Wagyu's outstanding proven bull mothers, being dam of Chiyozakura F349, Chiyohana F340 and Dai Ichi Yasuchiyo G615. Chiyofuku K733's pedigree contains three of the best-known sires used for improving eye muscle are (EMA); Michifuku, Itozurudoi 151 and Itoshigenami 148. In Blackmore's genomics research, eye muscle area (EMA) has the highest carcass trait heritability at 0.59. EMA affects the two most expensive cuts in the carcass; the cube roll and the striploin, and is the main area of significance when comparing our Wagyu beef against the Japanese produced Wagyu beef. The Japanese is still much larger. Combined with a high marbling score (MS) GEBV, Chiyofuku K733 is an elite plus rated bull for EMA at +16.45 GEBV. Blackmore genetics are in huge demand – 2 Blackmore bulls sold earlier this year for $190,000 and $220,000!

MICHIFUKU

CHIYOTAKE Y377

CARCASS BY MICHIFUKU

The Genomic Estimated Breeding Values (GEBV) has been derived solely from the Blackmore Wagyu herd using; 10,903 genomic profiles imputed to 800K SNPs, five generation parent verified pedigrees and 5,345 full blood carcass results. The percentage accuracy of each GEBV is calculated from a combination of genomic markers, generation pedigree and carcass results.

The herd GEBV average is used to evaluate each animal by either adding or subtracting that animals' GEBV against the herd average. The Blackmore Wagyu herd average, based on the above combination, is EMA 89.40, FC 1.07, HCW 415.40, MS 9.15, P8 Fat 18.02, Rib Fat 20.12.

The 'blue text' within the pedigree is production results sourced from the Japanese progeny test program, the 'red text' is our GEBV (EMA, HCW, MS) and the Herd Carcass Data is the results from the Blackmore Wagyu production system.

ACCURACY	98%	95%	97%	98%	98%	97%

In Yasuchiyo C058, we believe we have produced one of our best all round bull, who produces large framed cattle with exceptional meat quality.

This success has eventuated through line breeding Yasuchiyo C058's dam, Itochiyo A009 to the most famous cow in Japan, Kikutsuru, the "Hyogo Cow", attributed to having the single most influence for increasing size in the Tajima strain. Kikutsuru appears 6 times in Itochiyo's seven generation pedigree.

We out-crossed Itochiyo A009 with the line bred Yasumidoi blood sire, Yasafuku Jnr. One of only two Yasafuku sons to leave Japan, Yasafuku Jnr. has the added advantage of Monjiro (Michifuku's sire) as his dam's sire, a direct son of Yasumidoi.

Yasuchiyo C058, even as a young calf was showing with his early maturity, he was to become one of our largest and most stylish bulls we have bred. This was more spectacular as we didn't expect these extremes from his predominantly Tajima pedigree.

- Domestic Only
- Storage Location: Brushy Creek, Taylor TX
- Now registered in the USA, Trent Bridge N346 is a recessive free son of Sumo Cattle Co Michifuku F126. F126 is an incredible proven bull averaging an 8.3 Marble Score and 959.2 lbs Hot Carcass Weight on 55 carcasses in the Sumo Wagyu herd. N346 has high and balanced genomic EBVs to back up his elite sire stack of Sumo F126 x TF 148 x 003 x TF 151 x Michifuku x TF Kikuhana x TF Dai 2 Kinntou 3!! This is the maternal line of Mayura Itoshigenami JNR, TF Terutani 40/1, Sumo F126 and so many more great sires. Here is a chance to get into the cutting edge of elite Australian genetics with a double cross of the TF Dai 2 Kinntou 3 family! Breeder Charlie Perry's comments on N346 "N346 is a thick, deep easy doing bull who has produced some magnificent young females. With his high milk EBV we are optimistic that he will produce some fantastic doing mothers. His growth traits are certainly expressing themselves, with all his progeny growing out well." N346 is now entered in the Australian Wagyu Association's Progeny Test Program!

WYN WYNDFORD ITOGUNI 308H

- GENETIC INFORMATION: B3F, CHSC, CL16F, F11F, F13F, IARSC
- Move over Bond, there is a new Marble King – Wyndford Itoguni 308H (WYNFR308H). Itoguni 308H is now the #1 Marbling sire in the world according to the most recent November 2022 BREEDPLAN with a whopping +3.8 Marble Score and +0.52 Marble Fineness. On selection indexes, he is the #1 bull in the world on F1 Terminal Index (+$291. On Fullblood Terminal Index, he is #5 (+$290) and top 1% on SRI (+$289).
- Wyndford Itoguni 308H will be a key breeding tool to inject high marbling genetic into your herd. This sire gives you all the marbling of Bond, yet larger size. At the recent Passion for Prime sale in Salina Kansas in June 2022, straws on this world leading bull went for $6,000 a straw.
- This world leading bull is a perfect blend of US and Australian Genetics. His dam is from a line of proven superior meat quality sires including Itoshigenami 148, World K's Michifuku and Word K's Kita guni JR. His sire, Mayura L0010 has added weight and strength. He is also enlisted in the Australian Wagyu Association Progeny Test Program. The bull will now be your #1 breeding tool to inject marbling and marbling fineness into your wagyu herd. Do not miss this chance to acquire these elite genetics. Straws are CSS and eligible for export to most major countries – please inquire for your country. Straws currently stored at Hawkeye Breeders

- GENETIC INFORMATION: B3F, CHSF, CL16FU, F11F, IARSF
- Wyndford Spectre is a top quality, well rounded, extremely balanced bull. HE.HAS.IT.ALL!!!....Great weights, solid marble score and EMA and positive milk. This TOP 1% SRI bull has a super pedigree, with Itoshigenami JR on both sides it comes as no surprise that he is a big hitter. His Dam Wyndford Ms Marble (WYNFP10106) is a consistent Top 1% progeny maker and Wyndford Spectre is her finest achievement to date.
- This extremely well put together bull is a true L0010 son, he has great conformation, with strength from nose to tail, he is extremely correct, with great legs and feet. This bull brings balance to the mating, improving all the desirable traits!

- GENETIC INFORMATION: B3F, CHSC, CL16FU, F11F, IARSF
- Wyndford Hercules is a top 1% sire out of Mayura L10. He is a HUGE growth bull and ranked #16 by WBI. He has top 1% Selection Indexes for WBI (+$311), SRI (+$281) and FTI (+$245). He also sports top 10% milk at +5 and a super Marble Score for his size at +1.7. Hercules will be a bull to watch and is enlisted in the AWA Progeny Test Program which will provide valuable information for the newcomer bull. Hercules is sired by L10 whose pedigree combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudoi, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudoi Y398, and Blackmore Dai Ichi Kikuzakura H017! His US Dam was sired by Hirashigetayasu, a proven growth bull that has added further weight & strength.

- Storage Location: Hawkeye Breeders, Adel IA
- Synergy JNR Supreme S598 is a direct son of Mayura Itoshigenami JNR combined with one of our elite carcass proven branches of the Suzutani maternal line. JNR needs little introduction, now often called "The King of Australian Wagyu". The dam here is a TF 148 x Shigeshigetani x TF 151 x Takazakura (Full Sister to Shikikan) x Suzutani! Supreme represents an ideal linebreeding of TF 148 and Suzutani genetics with TF 148 appearing 2x in his 3-gen pedigree and Suzutani sons Shigeshigetani and Sanjirou appearing too.
- He combines low birth weight, good carcass weight, large ribeye area, and high marble score.
- Multiple GEBV Traits & Indexes in the top 1-10% of the breed! 0.3 BW, 2.2 MS, 8.3 REA, 27 CW, .32 MF
- Pictured is a split & ribeye from a maternal sibling to Supreme harvested at only 27 months and 415 DOF

- Multiple GEBVs Traits & Indexes in the top 1-15% of the breed! Including Marble Score, Ribeye Area, Carcass Weight, Self-Replacing Index, and F1 Index.

Ppictured is a ribeye from a 3/4 sibling to Superior's dam.

- Pictured is a ribeye from a 3/4th sibling to Superior's dam. This steer was second place in the MIJ Carcass Camera category of the 2021 Triple Crown Steak Challenge.
- Synergy JNR Superior S594 is a direct son of Mayura Itoshigenami JNR combined with Genjiro and the Suzutani maternal line. JNR needs little introduction, now often called "The King of Australian Wagyu". The dam here is a Genjiro daughter with tremendous growth and maternal ability, having been line bred to Monjiro bloodlines through Genjiro, Haruki 2, and Michifuku. Superior blends genetics from the leading families of Suzutani, Okutani (Genjiro), and Dai 2 Kinntou 3 (JNR).

CHR ITOZURU DOI 2408

- GENETIC INFORMATION: B3F, CHSF, CL16F, F11F, SCD AA, Tenderness 5
- Exportable
- Located at TransOva 743 Gage Blvd, Richland, WA 99352, contact: Taryn Coffman, 712.722.3597
- The semen being offered at today's auction is simply a rarity. 2408, at over 14 years of age, 2000 pounds AND still breeding cows, is the oldest Itozuru Doi TF 151 son alive in America today and perhaps even in the WORLD!!! He is the FIRST male combi- nation of this mating (151 x CF 503 x Hikokura 1/10) born in America. 10 straws of CHR Itozuru Doi (FB8789) was recently sold at the "Wagyu 365 Wagyu on the Vegas Strip Sale" for $1,850 a straw. This classic Takeda ("Modoshi Kohai") breeding produced the 2408 bull now owned by the Knox family - a Yasumi Doi - Dai 7 Itozakura - Shigeshigenami composite. This is an absolutely sensational mating to breed any fullblood Wagyu females to and there are few, if any, male progeny remaining alive like him. Finally, 2408 is one of only two known bulls (with this mating) to be tested genetically recessive disorder FREE. Yes, that is correct; a 151 x 148 son (both carriers of F11) free of all genetic recessive disorders! Incidentally, the other geneti- cally similar recessive free bull is the number 1 marble fineness bull in Lone Mountain's most recent (2019) sire summary. To top this off 2408 posses an SCD of AA! The ONLY AA bull with this mating to have ever been registered!

- Straws stored at Champion Genetics 18035 FM 17, Canton, TX 75103, 903.567.4044
- Big John is sired by Shgeshigetani FB2907 and his dam is 186R Sanjiro (FB6015). His weight is 1900+ pounds and his body is extremely long. Shigeshigetani represents a very powerful strain of the Wagyu breed. He has some of the most powerful genetics in the Wagyu breed. He has Yasumi Doi as well as Yasutanidoi bloodlines but he carries the Kumanami strain as well. The Kumanami family is known for its extremely potent marbling genes. Shigeshigetani is a half brother to the famous bull Michifuku and he is known to produce offspring that are tall with a long body. Sanjirou was a SCD VA and 7 Tenderness. She is the daughter of Sanjirou 8898 (FB2501).

- Domestic Only
- Straws stored at Champion Genetics 18035 FM 17, Canton, TX 75103, 903.567.4044
- Coats,132W, who is a bull that is developing very nicely, was sired by Heartbrand Red Emperor, FB14999, and his dam was Akako 10, DCS VV, Tenderness 4. She weighted 1350 lbs. Coats exhibits the size, weighing 2040 lbs and the muscling you would expect. He stands a little over 5 ft. tall. HeartBrand Red Emperor, out of Big Al, is a sire that has proven to throw good size offspring with good growth and dispositions. Red Emperor's grandsires were ranked #1 and #3 in the Japanese Red Wagyu Registry for high marbling carcasses. He has exceptional EBV's. This 50% red genetics bull shows why you would consider the red/black combo.
